

MD PROGRAM (MBBS) 2025

INTERNATIONAL HIGHER SCHOOL OF MEDICINE CENTRAL CAMPUS

- Global Recognition
- Diverse Student Community
- Comprehensive Clinical Training
- Medical Research Exposure
- Strong Alumni Network

COURSE HIGHLIGHTS:

- Exposure to modern medical technologies
- Internship opportunities in affiliated hospitals
- Advanced simulation labs for practical learning
- Strong emphasis on patient care and clinical skills
- Special focus on FMGE, USMLE, and PLAB Training from 1st Year
- Latest National Medical Commission (NMC) Compliant MBBS curriculum

WELCOME MESSAGE

Dear Students and Parents,

It is with great pride and enthusiasm that I welcome you to at International Higher School of Medicine, a premier institution shaping the future of medical education and healthcare.

DR PHANI BHUSHAN POTU

As a leading center for medical education and research, International Higher School of Medicine is dedicated to nurturing the next generation of skilled and compassionate doctors. Our commitment goes beyond academics—we focus on holistic learning, integrating rigorous medical training with cutting-edge research and hands-on clinical experience. We aim to empower our students with the knowledge, skills, and ethical foundation needed to excel in the ever-evolving field of medicine.

At International Higher School of Medicine, we believe in creating a supportive and enriching environment where students can thrive and realize their dreams of becoming globally competent medical professionals. We are honored to be a part of this transformative journey with you and look forward to witnessing your success in the medical field.

Welcome to the International Higher School of Medicine family!

Founder & President (ISM EduTech), Med Edu Care Dubai

ISM EDUTECH, India

We are a pioneer in revolutionizing how medical professionals are created through learning and stay up-to-date on the latest advances in their field. By providing programs that are designed on the strong structural framework supporting a comprehensive and interactive learning experience, we aim to improve the quality of care and patient outcomes.

We have catered to the aspirations of more than 14,000 students to become great doctors and made it a reality because of our strategic and vast reach. India's premier ISO 9001:2015 certified medical and healthcare education facilitator (B2C), developer (B2B, D2C) and propagator and is committed to providing solutions and helping its consumers such as Universities and students by partnering and owning the best medical universities and relevant logistics solution providers across the globe.

MESSAGE FROM

The Rector of International Higher School of Medicine

Dear Students!

We are International Higher School of Medicine, was established in 2003 and well-known as an ISM brand in the past. Nowadays, the International Higher School of Medicine is one of the largest and modern medical education hubs in Kyrgyzstan. Our university has trained thousands of highly qualified doctors who are working in India and all-around the world. The IHSM has accreditation from the World Federation for Medical Education, which proves our international standards of medical education.

Over 4000 students have already graduated and around 3500 students are currently mastering medical sciences, training in our campuses and divisions. Over the last 18 years, the IHSM has gained the status of excellence in medical education and success of our students in Foreign Medical Graduate Examination, United States Medical Licensing Examination and many other licensing exams, which is a good hallmark of this and a benchmark for fresh challenges. Also our graduates successfully pass various screening tests at their first attempt. In addition to their educational and research activities, our students can demonstrate and develop their abilities in sports and arts making the student life exciting at the IHSM. Our alumni continue their study and work not only in their home countries, but all over the world: in the USA, Great Britain, Netherlands, Australia, Switzerland, Germany, Denmark, United Arab Emirates and many others. I thank you for your choice to study at the International Higher School of Medicine and wish the best in advancing your career development efforts as a medical doctor! Welcome to International Higher School of Medicine.

Stalbek M.
Akhunbaev

Central Campus Bishkek, Kyrgyzstan

1

Cultural and Educational Hub

Visit museums, galleries, and theaters, and explore educational institutions offering diverse learning opportunities.

2

Modern City with Soviet Charm

Wander through wide, tree-lined streets, Soviet-era architecture, and bustling bazaars that reflect the city's unique blend of past and present.

3

Vibrant Nightlife and Cafés

Enjoy a lively nightlife with trendy bars, cafes, and restaurants offering international and local cuisines.

NAMASTE Kyrgyzstan

Kyrgyzstan is one of the Central Asian countries bordered by Kazakhstan, China, Tajikistan and Uzbekistan. It is a mountainous country, 93% of its territory is located at over 1000 meters above sea level. The highest peaks are in the Kakshaal-Too range, forming the Chinese border. Heavy snowfall in winter leads to spring floods. This water runoff from the mountains is also used to generate electricity. The climate of Kyrgyzstan is sharply continental with hot summers and cold winters in the mountain regions. Approximately 247 days a year are sunny. The temperature in January varies between -4° to -14° C; in July and it fluctuates between $+12^{\circ}$ to $+40^{\circ}$ C; In Kyrgyzstan one can see the subtropical climate of the Fergana valley and semi-desert of the Chui and Tal as lowlands changing to the eternal frost of the mountains. In the valleys, the winter time is warmer than in the mountains. Because of this, light clothes are appropriate in summer, but in winter, warm clothes are essential.

About College

IHSM was established on a special resolution of the Kyrgyz Government in 2003. The main prerequisite for establishment of the school was a strategy of reforming Kyrgyz education system and increasing competitiveness of domestic universities, which resulted in the main emphasis of IHSM administration and faculty being focused on the creation of a modern dynamic educational institution that can provide high quality training and has competitive potentials in the medical education market. The School's MD program is ranked the best in the country with our teachers, scientists, and physicians being the leading experts in their fields.

Currently, the International Higher School of Medicine is a modern university with a comprehensive infrastructure, and experienced faculty members that are nationally and some of them worldwide recognized specialists in different areas of medicine, professional health organizations and agencies.

This higher educational institution is created to ensure as many opportunities as possible for those who want to become doctors and work in any place of the globe.

Eighteen years ago the first 13 students were enrolled, whereas at present about 3500 students study in the school. Most of our students are citizens of foreign countries:

MISSION

The International Higher School of Medicine serves the needs of the local and global community by educating students to become clinicians who demonstrate professionalism, practice evidence-based medicine, advocate for patients, and share the highest moral and ethical standards of health care.

VISION

The International Higher School of Medicine will be the foremost leader in medical education in Asia. Our students, faculty, and alumni will emerge as leaders bound to health equity and quality care for all through innovative experiences and research, patient-centered approach and service to their communities.

Accreditation and Listings

The International Higher School of Medicine (IHSM) is an official state educational institution with the license of the Ministry of Education and Science of the Kyrgyz Republic to conduct training in the field of General Medicine. The duration of study is 5.5 years. (Official license No.LD 170000949).

IHSM is officially registered at:

World Health Organization (WHO)

World Federation for Medical Education (WFME)

Foundation for advancement of International Medical Education and Research (FAIMER)

World Directory of Medical Schools (WDOMS)

Organisation for PhD education in Biomedicine and Health Sciences in the European System (ORPHEUR)

An International Association for Medical Education (AMEE)

The Association of Medical Schools in Europe (AMSE)

International Federation of Medical Students' Associations (IFMSA)

Asia Pacific Quality Network (APQN)

Asian Medical Students' Association (AMSA)

Academic Programs

Training at IHSM is conducted with the most up-to-date educational technologies used to ensure highly efficient training of doctors. IHSM's primary goal is to produce highly qualified doctors who will be able to successfully work in any part of the globe.

Basic medical education – General Medicine (5.5 years of study)

is for school graduates with 12 years of secondary school educational experience (mostly for British Commonwealth citizens).

This program is implemented in English as the language of instruction. The program is implemented with the use of integration and modules based training technology and through the application of credit hours system.

Postgraduate studies (residency program, 3 years)

are conducted in a broad range of such clinical fields as: obstetrics and gynecology, surgery, traumatology and orthopedics, pediatrics, therapeutics and other. IHSM also offers postgraduate non-clinical training programs for the degrees of physician-laboratory assistant and Master of Public Health.

Doctoral programs

Candidate of medical sciences, Doctor of medical sciences and Doctor of philosophy (Ph.D)

Structure of Medical School

The International Higher School of Medicine has a mobile and compact structure allowing for quick response to any challenges of the time and introduces innovative technologies in educational, scientific and medical performance.

Financial, technical and intellectual capabilities available at IHSM provide students with access to the most up-to-date training technologies. Training in clinical disciplines at IHSM is conducted at facilities of National Hospital, leading research institutions and Bishkek municipal in-patient settings which ensure an adequate number of patients for training.

Research and treatment are carried out by IHSM staff in the most vital fields of modern medicine with a focus on mountain medicine due to the geographical location of Kyrgyzstan. Particular attention is paid to the quality of medical services rendered. IHSM students have the opportunity to take part in research and treatment of patients as well.

IHSM in its work follows the standards imposed by the World Federation of Medical Education on medical schools. IHSM constantly conducts self-attestation to ensure permanent quality improvement.

HELLO FROM KYRGYZSTAN

Kyrgyzstan, a hidden gem in Central Asia, is a land of stunning landscapes and rich history. Surrounded by the Tien Shan mountains and the breathtaking Issyk-Kul Lake, it's a haven for outdoor enthusiasts. The country has a deep nomadic heritage, once a key stop on the ancient Silk Road. Known for its warm hospitality, Kyrgyzstan offers travelers a unique blend of adventure and culture. Visitors can explore vast mountains, ancient petroglyphs, and experience traditional nomadic life. The Kyrgyz people, proud of their history and traditions, are known for their generosity. With its vibrant festivals and horse riding culture, Kyrgyzstan is an unforgettable destination. Whether trekking or relaxing in yurts, the country's natural beauty and charm never fail to captivate. It's a perfect escape for those seeking an authentic and adventurous journey.

STUDENT FACILITIES

HOSTEL & MESS

MORPHOLOGICAL CENTER

The Morphological center is located not very far from the IHSM administration campus. It is a university unit designed for delivering practical classes in the following fields:

Anatomy

Physiology

Histology

Biochemistry

Pathological
Physiology

Pharmacology

Biology

It is an up-to-date big building with many well-equipped classrooms, lecture halls, laboratories. Anatomical dissections, practical manipulations and presentations are conducted there. The inner yard of this setting has some buildings for laboratory research.

CLINICAL SIMULATION CENTER

The Clinical Simulation Center (CSC) of the International Higher School of Medicine is a unit where it is possible to train students using simulation technologies and to certify professionals of practical healthcare. IHSM CSC consists of two floors with a total area of 2400 m². The main goal of the Center is to develop and open up new horizons for practical training, advanced training and assessment of its level among students, doctors and nurses.

The foundation of the educational activities of the Center is practice-oriented approaches based on the principles and advantages of simulation training that is aimed not only at mastering individual skills by each trainee, but also at teaching teamwork, professional behaviour and communication skills with the patient. The center has a well-developed infrastructure.

There is a lecture hall, a debriefing and information technology room, training rooms for practicing skills in pediatrics, obstetrics and gynecology, first aid and emergency medical care, surgery, ENT, ophthalmology, neurology, therapy, nursing, as well as rooms for objective structured clinical examination.

STUDENT LIFE

IHSM has facilities for sports and leisure. All available within one of Bishkek's most exciting locations which includes sports areas, theatres, libraries and internet rooms.

The leadership of school and its faculty conduct cultural and organizational work with students including excursions to museums, sight seeing in Kyrgyzstan, going to theaters and trips to the

mountains. The information on academic performance and attendance of students is made available on the school's website each semester to make sure the training process is transparent. IHSM provides accommodation in hostels with modern facilities. Hostels have access to internet services and students are protected by special Security agencies

Student Testimonials

Shashank

IHSM has united representatives of different countries and gave us good memories of student life. I received knowledge that helps me now in my work. After graduation, I decided to return to Kyrgyzstan and continue my educational path (post-graduation) here.

Reena Gupta

Time flies like an arrow. The days I spent in IHSM were far beyond what words allow me to describe. I do believe that the solid foundation I learn in IHSM will continuously help me in my future research in medicine. Also, the friendship I had with my classmates at IHSM is an invaluable legacy in my life.

Omkar Singh

I will be grateful forever to IHSM and ISM Edutech for being an integral part of my journey and to confer scholarship. Being a founder member of IHS Student Council and a national medical student organization of Kyrgyzstan AMSA-KG, I strongly believe that medical students shall take new initiatives impacting medical education and healthcare.
